Organic

Organic croissants are a delightful variation of the classic French pastry crafted with a focus on high-quality, organic ingredients. These pastries often prioritize sustainability and environmental consciousness by using organic, ethically sourced ingredients.

Enjoyed plain or with your favorite organic spreads, organic croissants offer a delicious and mindful treat for those seeking a more sustainable and natural pastry option.

Vegan

Vegan croissants are a plant-based twist on the classic French pastry, traditionally known for its flaky layers and buttery flavor. Instead of using animal-derived ingredients like butter and eggs, vegan croissants are crafted with plant-based alternatives.

Despite these substitutions, vegan croissants aim to maintain the light and airy texture characteristic of the original pastry. Whether enjoyed plain, with fruit preserves, or other vegan spreads, these pastries cater to those following a plant-based lifestyle while still delivering the indulgent satisfaction of a classic croissant.

Gluten Free

Gluten-free croissants cater to individuals with gluten sensitivity or celiac disease, providing a delicious alternative to the traditional wheat-based pastry. The dough for gluten-free croissants is typically made using alternative flours like rice flour, almond flour, or a blend of gluten-free flours. In place of traditional wheat-based ingredients, these croissants may use xanthan gum or other binding agents to achieve the desired texture.
